

WDSL 96.5

01:37

Hi Mika! My name is Steve Boger. I'm one of the personalities on WDSL. Wow, that is so incredible! Yes, that is WDSL 1520 AM in Mocksville, North Carolina. The voice you heard on the station ID is Farren Shoaf. His station ID came on immediately after my show ended at 5 PM Eastern time on Saturday, November 25, 2023. I knew that AM radio signals could reach a long distance when the weather and atmosphere conditions are right, but that is still astonishing even with the strong equipment that you have. Thanks for reaching out to us and letting us know that you picked us up and heard the station in Finland. That is phenomenal! I hope you enjoyed what you heard us broadcasting, and will try to find us again.

Thanks so much and take care Mika!
